

TIMELESS CONTEMPORARY NATURAL

SILVA
PANEL

Sustainably sourced, high quality,
100% coastal Western Red Cedar

Silva Panel only uses the highest grade of clear Western Cedar throughout the entire panel. No hidden defects in either core or on the back. Vertical grain is used exclusively on the face of the panel.

Silva Panel is engineered for exterior cladding, fascia, garage doors and other high moisture applications.

It is the right choice for rainscreen applications where high standards of finish are required. Silva Panel brings out the natural beauty of Western Red Cedar to the forefront of external finishes.

MADE IN CANADA

www.silvapanel.com

SILVA PANEL'S SOLID 3-PLY ARE
EDGE-GLUED & CROSS-LAMINATED
FOR **EXTREME ENVIRONMENTS.**

Silva Panel spares no expense
to provide high quality to clients.

Swiss wood finish, BOMOL is used exclusively
in every product from Silva Panel.

Available in thousands of colours and tints,
BOMOL is a solvent-free, hydro oil stain
specially manufactured for exterior and
interior panels.
